

# Summary of logo variations

	full		mark		type		icon
color							
color-alt							
inverse							
inverse-alt							
black							
white							

- Usage:
- **color**, **color-alt** and **black** are meant to be used on a white background.
  - **inverse** are meant to be used on a #4D41B1 background.
  - **inverse-alt** and **white** versions are meant be used on a black background.
  - typically prefer to use **default** versions in png format.
  - typically prefer monochrome versions for backgrounds other than black or white.
